LONG ARM MACHINE QUILTING SERVICES

Machine quilting is not an exact science. There are no guarantees of perfection from The Quilters Quarters on quilting services, only our promise to do our best with your quilt top. Quilting price is .02 ¢ per square inch of top with a minimum charge of \$75 for overall quilting or edge to edge type quilting. Custom quilting is .04¢ per square inch with a minimum charge of \$100.

All quilt tops should be square, pressed and all loose threads removed. Backings should be pieced and pressed. If The Quilters Quarters must piece the backing or press the top and/or backing, there is a \$10 for each service that will be included in the final price. Batting from a roll is preferred, however, if you wish to use batting from a package (plastic bag), it should be understood that wrinkles from the package are very difficult to get flat and may not be completely smoothed out in quilting.

There is a \$5 thread charge for each quilt that includes up to two thread colors, if you wish additional colors to be used there is a \$5 thread charge per color change.
